

SYED KAYES MAHMUD

Full Stack Developer

Savar, Dhaka | syedkayesmahmud@gmail.com | +880 1737-787307 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Self-taught full-stack developer building and rigorously testing production-style web applications since 2023. Experienced across the full lifecycle — frontend (React/Next.js), backend (Node.js/Express, Django), and deployment (Vercel) — with a strong focus on performance and security validation using Artillery, Lighthouse, GTmetrix, OWASP ZAP, and SSL Labs. Open to freelance and remote contract work — available immediately.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frontend: React, Next.js, Redux, Tailwind CSS, Vite

Backend: Node.js, Express, Django, REST APIs, GraphQL

Databases: PostgreSQL, MongoDB, Redis, Supabase

DevOps / Cloud: Docker, AWS (EC2, S3, Lambda), CI/CD (GitHub Actions), Vercel

Testing & Performance: Artillery (load testing), Lighthouse, GTmetrix, OWASP ZAP, SSL Labs, UptimeRobot, Jest, Cypress

Tools: Git, Postman

PROJECTS (INDEPENDENT PROJECTS — LOAD & SECURITY TESTED, DEPLOYED ON VERCEL)

[University Sports Live Score Platform](#) | React, Node.js, Socket.io

2026

- Built a real-time sports score tracking platform for university tournaments with live match updates and sub-second latency.
- Load-tested with Artillery (1,000+ simulated concurrent connections); manually validated with 100+ real users. Uptime monitored continuously via UptimeRobot.

[Alumni Management Platform](#) | React, Express, Supabase

2025

- Built a customer-facing web application with JWT-based authentication and role-based access control across 5 internal tools.
- Designed the database schema to support 50,000+ user records; validated functionality and performance with 300 real test records.
- Optimized SQL queries and added Redis caching, cutting average database load by 30% under test conditions.

Other Projects: [BlogSphere](#) (Next.js/Supabase blogging platform) · [La Maison](#) (restaurant ordering platform) · [Dorja](#) (hyperlocal delivery network) — all performance- and security-tested with Lighthouse, GTmetrix, OWASP ZAP, and SSL Labs.

EXPERIENCE

Web Contributor | Jahangirnagar University Science Club

Aug 2024 – May 2025

- Built responsive websites and landing pages using HTML, CSS, and vanilla JavaScript for 15+ small club projects.
- Assisted with bug fixes and QA testing across club React projects, gaining hands-on experience with real-world collaborative development.

EDUCATION

B.Sc. in Statistics and Data Science | Jahangirnagar University

2023 – Expected Dec 2026

SELF-DIRECTED LEARNING

- Full-stack web development (HTML, CSS, JavaScript, React, Node.js) — structured video curricula from Apna College, freeCodeCamp.org, CodeWithHarry, and BroCode (YouTube).
- Core web fundamentals, accessibility, and modern frontend practice — MDN Web Docs, W3Schools, freeCodeCamp.org, official React/Vite docs, Frontend Mentor, CSS-Tricks, Piccalili, and Can I Use.
